

August the 12th

Seixo Branco – Mera

6 km

Punta Seixo Branco, in the Coruñés municipality of Oleiros, is one of the officially authorized and set-up spots for watching the total solar eclipse on August 12, 2026.

The name literally means “white stone”, and derives from the singular bright white vein of quartz across the dark cliff rock, clearly visible from the sea.

Here we can visit the “furnas”, caves naturally excavated by the sea, and enjoy the amazing view on Coruña and the Artabro gulf.

Recommendations

- Comfortable shoes, sporty type (trekking shoes would be ideal!)
- Comfortable clothing and jacket
- Sunscreen protection
- A snack will be provided, but bringing an extra bottle of water is advisable
- Small plastic bag to collect any waste or debris (including toilet paper!)
- Small hand torch or headlamp

Estimated schedule

- 17:00** Bus collects at hotel
- 17:30** Mera. Walking around Seixo Branco
- 19:30** Ready for the eclipse!
- 21:00** Return to Mera
